We are committed to deliver quality software packages to the clients to fulfill their business requirements on time and on budget using our qualified and industry experienced software experts”.

Wisdom Software Technologies FZE

Wisdom Soft

We are in the Digital era. Information Technology is a buzz word being heard everywhere from small firms to giant corporate sectors. Among all the industries, IT is growing at a tremendous speed.

A vivid perception of the ever growing technology lust of the industries in the IT sector has enabled Wisdom Soft to develop enormous applications of specific relevance for the present and the future.

About Wisdom Soft

Wisdom Soft is an independent Software Development Company collaborating with Wisdom Group of Institutions and Wisdom IT.

Wisdom Group is spread over UAE, UK, Oman and India. Wisdoms Group's training division, Wisdom IT, is the Certified Partner for Learning Solutions (CPLS) of Microsoft and is also providing Partners Academy Program for Microsoft in UAE, Oman, Bahrain and Qatar.

Highly qualified and industry experienced software experts are the back bone of Wisdom Software Technologies FZE.

Mission Statement.

Wisdom Soft stands out as an established company, founded on solid business and management principles, and supported by a committed team of professionals who bring a diverse range of skills together for the benefit of the clients. It possesses not

only the latest technologies but also the most knowledgeable and experienced hands to offer most user friendly customized solutions where after sale service is ensured by the experts.

The Unique feature of Wisdomsoft is that the developers are working and residing in UAE and accessible to the clients at any time.

Wisdom Soft provides high quality on site services for software development, deployment, training and support on a broad range of hardware & software platforms and latest technologies.

Our prime objective is excellence in service and satisfied clientele. We strive to grow continually in our system's ability thereby providing the best possible information systems and services. We want to ensure value for our clients and security for our employees.

Our Guidelines for Developing a Quality Product

- Following globally accepted Rational Unified Process(RUP) in our software development phase.
- Our professionalism ensures products with global standard.
- Focus on successful and robust application.
- Conducting depth analysis to understand the actual requirement and business constraints.
- Striving to generate new ideas during analysis which will enhance your business.
- We accentuate on quality product.
- Detect the major risks early and provide remedy or alternate solution.
- An intuitive approach in developing applications helps extensibility of the products.
- Being in touch with clients during the whole life cycle of a project, makes it transparent that we are doing work on mutually agreed tasks or requirements.
- Standard design patterns (object oriented) are adopted to help reusability of the technologies.
- Work with successful and expertise entrepreneurs and corporates brings solutions to their most challenging and complex issues.
- Formed by a team of Software experts, Wisdom Soft aims at blending knowledge and skills to provide results that meet your requirements
- At Wisdom Soft , we believe in active listening, analyzing, advising, and implementing projects and concepts to effectively present complex information.
